

MINIX®

Mini Wireless Keyboard
and Touchpad - User Guide

English

MINIX NEO K1

MINIX NEO K1 is a Mini Wireless Keyboard and Touchpad intended for PCs running Windows OS. Enjoy effortless control with NEO K1's easy to use all-in-one keyboard and touchpad design. NEO K1 delivers laid-back control, fitting the familiar standard keyboard layout into the palm of your hand. Plus, its 10 meters wireless range ensures trouble-free connection.

Overview

System Requirements

- Windows 10, Windows 8 (8.1), Windows 7
- Windows Vista, Windows XP, Windows 2000

Specifications

Operating range: 10 meters

Battery type: Rechargeable Polymer Lithium-ion

Charging voltage: 4.4V ~ 5.25V

Charging current: 300mA

Sleeping current: 30uA

Operating voltage: 3.7V

Operating current: <15mA

Setup

1. Remove USB receiver from behind the back cover of the keyboard.
2. Plug the receiver into a USB port on your Windows-based PC.
3. Power on NEO K1 via the power switch located on the reverse side of the keyboard.

Please note, it is recommended to fully charge the keyboard using included micro USB cable prior to first use.

Re-pairing

The keyboard and USB receiver will automatically pair upon first use, however if pairing connection is lost follow the instructions listed below:

- 1, Press and hold F1 key, and power on the keyboard.
2. Then release F1 key immediately.
3. Insert the USB receiver into an available USB port within 30 seconds.
4. If pairing is successful, the orange LED indicator will stop flashing and the blue LED will stay illuminated.

Touchpad

NEO K1's touchpad supports multi-finger functions:

1. A single tap performs a left mouse button click.
2. Tapping with two fingers performs a right mouse button click.
3. The mouse pointer is controlled by sliding a single finger across the touchpad.
4. A single finger double tap will open the file or application that the pointer is positioned over.
5. Sliding two fingers up and down the touchpad functions as a scroll wheel.

LED Indicators

LED 1 (Blue) - Glows when keyboard is successfully paired to Windows-based PC.

LED 2 (Red) - Glows while keyboard is charging.

LED 3 (Orange) - Flashes when keyboard is in use.

Sleep Mode

If no keys are pressed or touchpad used within a three minute duration, NEO K1 will automatically enter sleep mode.

During sleep mode, all LEDs indicators will remain unlit. Press any key to wake the keyboard from sleep mode.
